User Manual

Product charging

To charge the built in rechargeable lithium battery, plug the Micro USB cable provided into the Micro USB 5V port on your speaker. Connect opposite end to your wall adapter plug, and plug into mains power. The charging indicator light will flash on. After fully charged, the indicator light will turn off. Disconnect the charging plug.

Pairing speaker to Bluetooth enabled device

1. Long press  button for 2 seconds on speaker. Bluetooth status indicator light turns on and LED indicator flashes quickly.
2. Go to settings on your smartphone or Bluetooth enabled device. Go to the Bluetooth function and search for devices in the menu.
3. When "iBright SL1" appears on the Bluetooth devices list, select "iBright SL1" to establish pairing and connection (if asked for a password, enter 0000). When pairing and connection is successful a connected tone sounds. LED indicator flashes from quick to slow. Short Press  to play music via your preferred music streaming app.
4. If the pairing is taking too long, or LED indicator does not flash, please power off and restart. Repeat steps 1 to 3.

Light function

1. To operate lantern light, short press  button for light ON/OFF. Long press  button to adjust the dimmer function to suit desired lighting effect.
